If you love languages, enjoy talking to children, and need a little extra cash, Language in Motion has a proposal for you! We are looking for students to take language and cultural activities to K-2 grade students at a rural Erie County school as part of the MELIA program sponsored by our Education Department. Language in Motion has been funded by the MELIA grant to pay our students to visit this after-school program once each month, sharing art and games for about an hour and a half. Students will be fully supported by Mr. Edwards in the planning and implementation of this fun, interactive program that will show children a little bit of the larger world. If you'd like to participate as a student LIM leader, see Mr. Edwards in Preston 206 by the end of September. Other students
